Disclaimer

Forward-Looking Statement Disclaimer

This presentation and the accompanying oral commentary may include express and implied forward-looking statements, including but not limited to statements concerning our business plans and objectives, product features and technology that are under development or in process and capabilities of such product features and technology, our plans to introduce product features in future releases, the implementation of our products on additional hardware platforms, strategic partnerships that are in process, product performance, competitive position, industry environment, and potential market opportunities. These forward-looking statements are not historical facts, and instead are based on our current expectations, estimates, opinions and beliefs. The accuracy of such forward-looking statements depends upon future events, and involves risks, uncertainties and other factors beyond our control that may cause these statements to be inaccurate and cause our actual results, performance or achievements to differ materially and adversely from those anticipated or implied by such statements, including, among others: failure to develop, or unexpected difficulties or delays in developing, new product features or technology on a timely or cost-effective basis; delays in or lack of customer or market acceptance of our new product features or technology; the failure of our software to interoperate on different hardware platforms; failure to form, or delays in the formation of, new strategic partnerships and the possibility that we may not receive anticipated results from forming such strategic partnerships; the introduction, or acceleration of adoption of, competing solutions, including public cloud infrastructure; a shift in industry or competitive dynamics or customer demand; and other risks detailed in our Form 10-Q for the fiscal quarter ended April 30, 2017, filed with the Securities and Exchange Commission. These forward-looking statements speak only as of the date of this presentation and, except as required by law, we assume no obligation to update forward-looking statements to reflect actual results or subsequent events or circumstances. Any future product or roadmap information is intended to outline general product directions, and is not a commitment, promise or legal obligation for Nutanix to deliver any material, code, or functionality. This information should not be used when making a purchasing decision. Further, note that Nutanix has made no determination as to if separate fees will be charged for any future product enhancements or functionality which may ultimately be made available. Nutanix may, in its own discretion, choose to charge separate fees for the delivery of any product enhancements or functionality which are ultimately made available.

Certain information contained in this presentation and the accompanying oral commentary may relate to or be based on studies, publications, surveys and other data obtained from third-party sources and our own internal estimates and research. While we believe these third-party studies, publications, surveys and other data are reliable as of the date of this presentation, they have not independently verified, and we make no representation as to the adequacy, fairness, accuracy, or completeness of any information obtained from third-party sources.

VMWARE – VREALIZE AUTOMATION

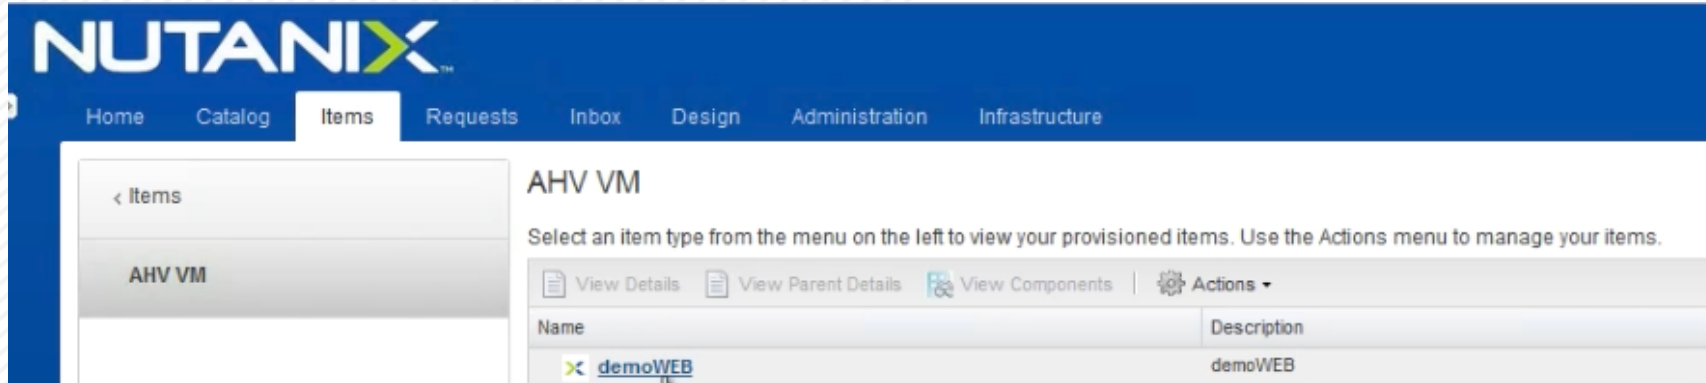

VREALIZE AUTOMATION + CHEF + NUTANIX AHV

The screenshot shows the 'New Request' form in the NUTANIX VRealize Automation interface. The form is for the service 'CentOS 7 - AHV w/ Chef'. The fields are as follows:

- Name of VM:**
- Memory in MB:**
- Number of vCPU's:**
- Chef Environment:**
- Chef Runlist:**
 - ☐ role[Web_Server]
 - ☐ recipe[apache2]
 - ☐ recipe[apache2::mod_acc
 - ☐ recipe[apache2::mod_acti
 - ☐ recipe[apache2::mod_alla
 - ☐ recipe[apache2::mod_allo
 - ☐ recipe[apache2::mod_apr
 - ☐ recipe[apache2::mod_asis
 - ☐ recipe[apache2::mod_auth

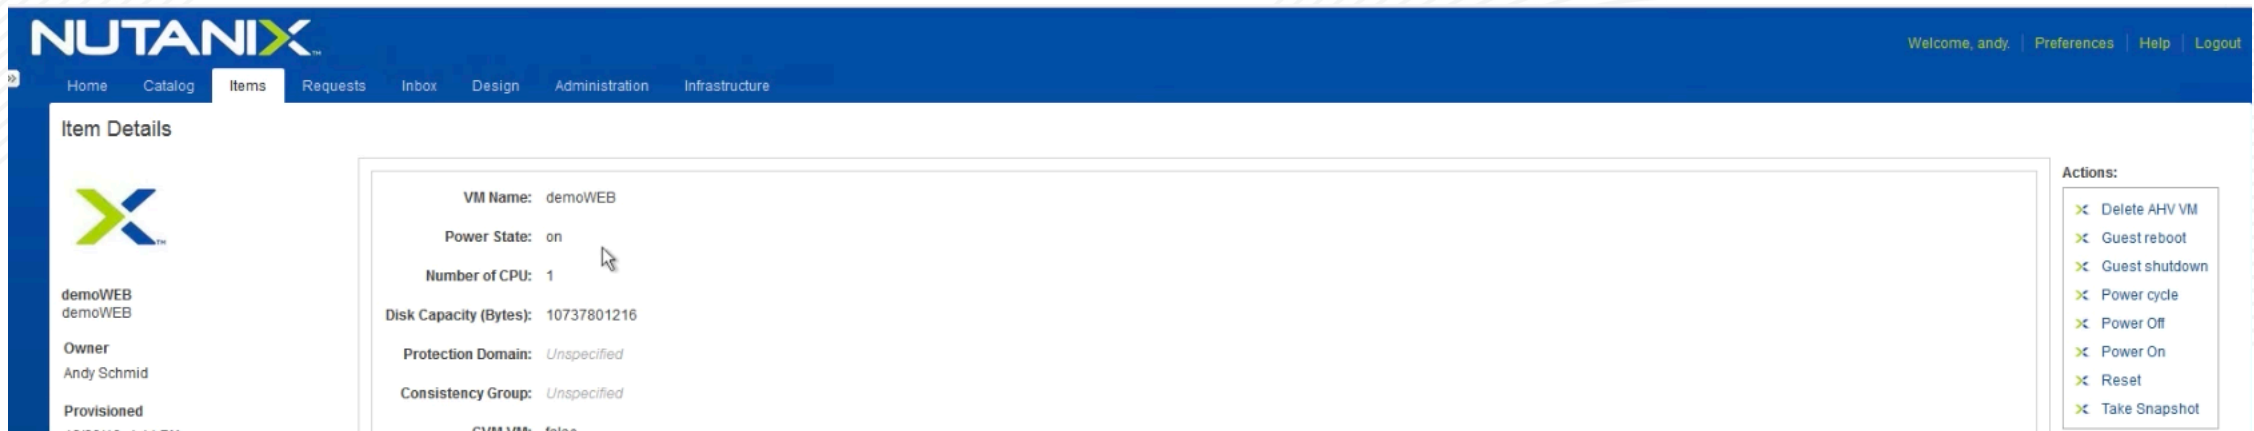

— How to Build a Private Cloud

AHV VM AS MANAGED ITEM IN VREALIZE AUTOMATION

The screenshot shows the Nutanix VRealize Automation console. The top navigation bar includes links for Home, Catalog, Items, Requests, Inbox, Design, Administration, and Infrastructure. The 'Items' tab is selected. On the left, a sidebar shows a list of items with 'AHV VM' highlighted. The main content area is titled 'AHV VM' and contains a message: 'Select an item type from the menu on the left to view your provisioned items. Use the Actions menu to manage your items.' Below this message is a table with columns 'Name' and 'Description'. The table contains one entry: 'demoWEB' with description 'demoWEB'. Above the table are buttons for 'View Details', 'View Parent Details', 'View Components', and 'Actions'.

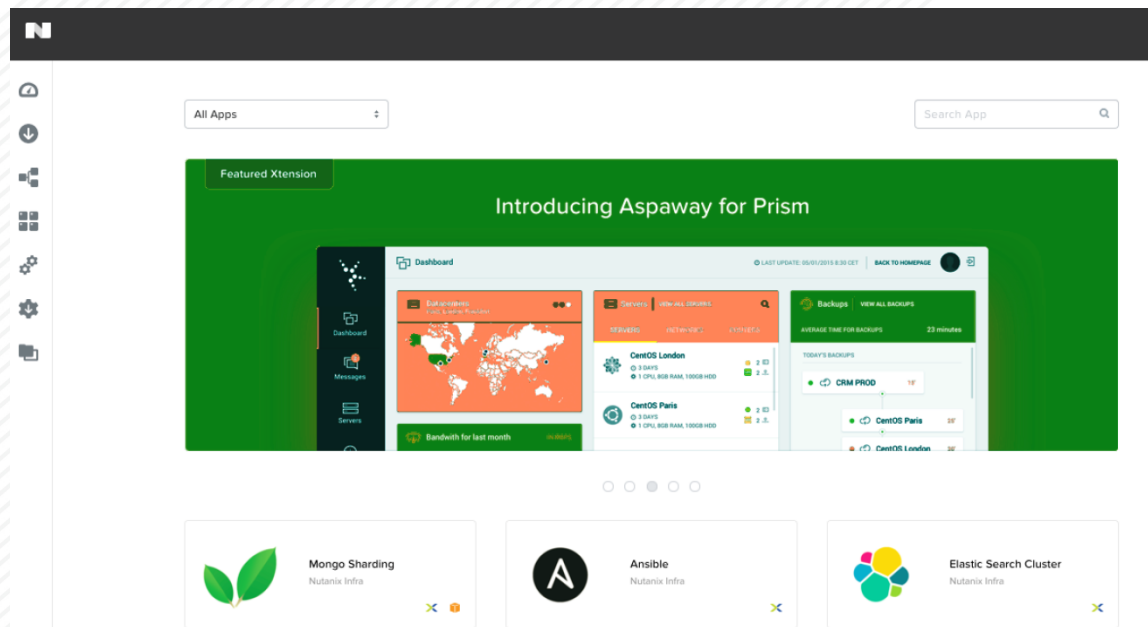

DAY 2 OPERATIONS

The screenshot shows the 'Item Details' page for the 'demoWEB' VM. The top navigation bar includes links for Home, Catalog, Items, Requests, Inbox, Design, Administration, and Infrastructure. The 'Items' tab is selected. The left sidebar shows the 'demoWEB' VM icon and details: 'demoWEB', 'demoWEB', 'Owner: Andy Schmid', and 'Provisioned'. The main content area displays the following details for the VM: 'VM Name: demoWEB', 'Power State: on', 'Number of CPU: 1', 'Disk Capacity (Bytes): 10737801216', 'Protection Domain: Unspecified', and 'Consistency Group: Unspecified'. On the right side, there is an 'Actions' menu with the following options: 'Delete AHV VM', 'Guest reboot', 'Guest shutdown', 'Power cycle', 'Power Off', 'Power On', 'Reset', and 'Take Snapshot'.
